

# Agile Project Management

Approach & common misconception

**Agile: where we're 'almost done'  
every week**

**Waterfall: where we're 'definitely  
done'... six months later**

# WHO IS IT FOR

Agile: embrace change.

Waterfall: embrace the plan.

WE ARE GOING TO ALIGN OUR MANAGEMENT STYLE WITH AGILE, SO THAT WE CAN KEEP ON CHANGING OUR STRATEGY AND THEN FAIL EACH TIME.

# MISCONCEPTION 1

Agile means no planning –  
flexible, yes. plan-less, no

"This is the latest one, constructed using Agile methodology with two Sprints."

# MISCONCEPTION 2

Agile is faster” –  
It’s not faster; it’s iterative.

# MISCONCEPTION 3

Agile works for every project  
– Great for software; tricky  
for building skyscraper”

**Thank You**
