How to Apply

Eligibility criteria

- The lead applicant should be an emerging Indonesian researcher based at an Indonesian institution
- The co-applicant may be an established researcher based at an Indonesian or Australian institution
- Other researchers may be researchers based at any institution in Indonesia, Australia or around the world.

Note: ANU Indonesia Project academic staff are not eligible to apply for the 2024-2025 round.

Topics

Topics of the proposals should fall into one of the ANU Indonesia Project research themes including:

- trade and industry,
- politics and governance,
- agriculture, resources and the environment
- climate change
- social policy and human capital
- gender equality, disability and social inclusion.

All applicants should consider research proposals that apply a gender and inclusivity lens or to consider problem statement with explicit identification of how the problem impacts men, women, or people with a disability and what the barriers are.

Funding

The research grants provide funding of up to AUD \$10,000 for each project of up to 12 months in duration. Payments will be made in two tranches. Half the awarded value will be provided to the lead researcher at the commencement of the project. The other half will be provided to the lead researcher once a Research Report, a Financial Report and receipts have been presented.

Budget items supported:

The grants are intended to cover the cost of initiating new research activities. Funds may be used for items that support activities in the proposal, including: * travel-related expenses (such as conducting fieldwork within Indonesia or travel by applicants to counterpart institutes in Australia/Indonesia) * survey costs * interviews * workshops * purchasing data or archival material * language translation and interpreting services * specialised software central to research activities * specialised laboratory equipment central to research activities * research assistance or technical support

Budget items not supported:

The grants are not meant to cover: * salary costs of applicants * professional membership or development fees * institute's overhead costs, capital works or infrastructure costs.

Reporting requirements

Successful applicants will need to provide a Research Report detailing the outcomes of their research as well as a Financial Report and corresponding receipts. Further information regarding these two reports will be provided to successful applicants. Successful applicants may also be invited to present the outcomes of their research at an ANU Indonesia Project seminar.

Approvals

It is the responsibility of the Lead Applicant and Co-Applicant to ensure: * the chosen topic for their research, and travel approval for their research is approved and supported by their home university. * responsibility for all administrative arrangements associated with their activity, including visa and travel arrangements. * responsibility for obtaining adequate insurance (if necessary), such as medical, public liability, travel and/or accident insurance for the duration of any travel for scheduled research fieldwork. * Australian recipients intending to travel to Indonesia should seek information and advice from the Australian Government regarding travel to Indonesia.

Grant Evaluation Criteria

The ANU Indonesia Project will manage the selection and approval process. Proposals will be assessed on the basis of:

1. academic quality and research potential
2. alignment with the research topics (listed above)
3. policy relevance
4. feasibility (including timeline and budget)
5. prospects for long term collaboration between Indonesian and Australian institutes and potential to obtain additional funding

In 2024-2025, a minimum of one grant will be awarded to a research proposal with a GEDSI topic, and a minimum of one grant will be awarded to a research proposal with a Climate Change topic.

Submission and Key Dates:

The ANU Indonesia Project will accept proposals using the application template available on the Anu Indonesia Project website. Proposals should specify research objectives, background, significance and innovative aspects, policy relevance, expected outcomes and deliverables, timeline and budget.

Proposals should be submitted to Indonesia.Project@anu.edu.au

Key dates

Details	Date
Applications open	8 July 2024
Deadline for submitting application	15 August 2024
Application reviewed	16 – 28 August 2024
Outcome announced	30 August 2024
Indicative commencement date of projects	1 September 2024

End date of projects

30 June 2025
