What They Say About KNB Scholarship

Maurice Ntahobari
Rwanda – KNB Scholarship Grantee

During my stay at ITS, life was really nice and interesting. ITS is a lovely educational institution where I met many students from different countries. Due to this, I learnt various culture and experienced different good behavior. I also got technical skills and knowledge as I joined Informatics Department. Again, I enjoyed the way the lectures interact with the students which is certainly helpful and makes easier for international students to better study and do researches. Finally, the international office care much about the students to smoothly realize their students.

Kristina Peneva
Bulgaria – KNB Scholarship Grantee

Since my adolescence, I have both recognized the value of and benefited from intercultural programs. In 2014, I started my bachelor's degree at ITS in Surabaya as a recipient of KNB scholarship. I had the opportunity not only to completely engross myself in the local culture, history, and language, but also I was introduced to the Indonesian traditional and modern architecture. After graduating in 2018, I can confidently say that I gained valuable theoretical and practical understandings during my study, which are benefit to both my personal and professional development.

Mohammed Hatem Ali Al-Hooti
Yemen – KNB Scholarship Grantee

Being admitted by ITS is like paying for an exclusive world tour. This campus is comprised of different people from different nationalities which makes it a global community for a varied learning. I've got a wonderful experience. My skills are developed. I have built my confidence. I am not able to express all of my appreciations which I have for generosity. KNB Scholarship that I have been awarded brought me a step closer to living out my dreams. I grew up in an environment where every minutes is to be appreciated and valued. I consider myself blessed to be exposed to many experiences that have helped to shape me as a person.
