

Ilka Apontoweil

Netherlands Exchange Student

*Amsterdam University of
Applied Science*

All my experiences were **really positive**. The start of the semester was really well organized. I have participated in multiple events that **really helped us** to get to know: each other, the campus, the city, and the culture. I am not sure if you can really call it an event, but the Bromo trip was for sure one of my biggest highlights. I really felt the effort that was made by ITS to **make everything the best they could**.

I feel like I have learned a lot and also had a lot of fun while staying here and traveling around. My favorite moments are small **memories that I made** with friends I met here and all the travels I did. Exploring the rest of Java, Bali, Lombok, Flores.
