An advertisement brought me to know ITS. ITS really profound my **interest in Indonesian culture**. Such a country, that is: beautiful, eco-friendly and well endowed. I liked both Surabaya and Indonesia a lot and I really **wish to go back** there.

Having a study at ITS was a great decision I made because all the academic environments are accessible, friendly, and helpful. I learned Bahasa Indonesia well enough to converse with my friends and in reciprocal. think being diligent and punctual are key behaviors for an ITS student, as if they are the most important aspects of being part of ITS. I **hope everyone who joins ITS puts forward their most sincere effort** in accomplishing their goals and make us all the members of ITS family proud.
