Netherlands

Exchange Student

Hanze University of Applied Sciences Groningen

I chose ITS because I heard that it is a **good technical university**. The campus was way bigger than I expected and super green.

Surabaya is a **vibrant, huge city full of life** and friendly people, much like the rest of Indonesia. By the end of semester, I had started to pick up more Bahasa which making me easier to communicate. I would describe the overall experience as an **amazing adventure that changed my life** and will be my core memory forever. I would definitely recommend studying here. Indonesia is so friendly in every way, and I feel like I have learned a lot during my stay. I loved the trip to Bromo, which was super well-organized and a great time to come together with everybody.
