

Stella Zill

Germany Exchange Student

*HU University of Applied
Sciences Utrecht*

When looking at my options, ITS stood out for its location in Indonesia and its educational offerings. The image of ITS were perfect for expanding my knowledge in many directions. ITS area is really big compared to my home university, so it was slightly confusing to find the right buildings at the start. However, the campus is so **green and nicely arranged** that it was a pleasure to explore.

It's been a great experience to study at ITS. I am very thankful for all the support I received from teachers, local students, and other representatives. If you want to have a fun time, gain authentic cultural experiences, and travel in Indonesia, I would 100% **recommend doing an exchange** at ITS.
